

Construire les 3 **MEDIATRICES** de chaque triangle.

The worksheet contains five triangles, each with a 5x5 grid for construction. The grid columns are labeled A, B, C, D, E and the rows are labeled 1, 2, 3, 4, 5. Red lines indicate the construction of the three medians for each triangle. The medians are lines connecting each vertex to the midpoint of the opposite side. The grid is used to find these midpoints and draw the medians accurately.
